DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 5/3/2004 has been considered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Nogaki Hisami on 9/13/2004.

The application has been amended as follows:

Claim

Claim 4, canceled

Claim 1, line 5, after "to said frame," insert – a pair of axially aligned wheel shafts for rotatably supporting said wheels in a mutually parallel position and a first plurality of axially parallel wheel shafts for rotatably supporting said wheels in a mutually in-line wheel position, --

Claim 1, line 6, before "mutually" change "a" to – said --

Claim 1, line 2, before "plurality of cross members" delete "second"

Claims 8-10, change number "4" to -- 1 --

Claim 28, line 1, before "including" delete "comprising"

Allowable Subject Matter

3. Claims 1-3 and 5-40 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art does not teach the hand truck as recited in claims 1, 28 and 33, which include a pair of side wheel shafts and a pair of rearwardly extending rear wheel shafts on a hand truck frame. The hand truck includes wheels engageable for rotation interchangeable between the side wheel shafts in a mutually parallel wheel position and the rear wheel shafts in a mutually in-line wheel position transverse to the parallel wheel position, such that the hand truck is convertible between forward and sideways displacement. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Raff discloses a foldable wheel structure, , Wenzel discloses a

tool for floor covering installation, Wander discloses a hand truck for transportation heavy flat articles and Fagerqvist discloses a hand propelled truck.
